2019

Dear people of Deià,

Another year has passed and we meet here to explore the paths, full of hope, that lead into the future.

After all the drama of the elections, the Festival of Saint John has arrived. The previous municipal government have offered me the opportunity to deliver this welcome, even though they were the ones who did the work of designing and organising this festival programme. Over and above the agreements and disagreements that we may have had in the past, I would like to thank them for their good will in the transfer of powers, and for the work they have done, especially Magdalena as the Mayor, and Marga as the Councillor for Festivals.

The Festival of Saint John is much more than a series of activities. For more than four hundred years the people of Deià have gathered on these days to celebrate, to affirm ourselves and take pride in our community, and to generate renewed impetus to launch ourselves into the future. That is the real spirit of the festival, and that is our goal as the Town Hall. With that in mind, we urge you to enjoy and participate actively in the various activities that this programme offers, because it is each and every person in Deià that gives them meaning.

In the name of the old and new municipal corporations, I wish you 'molts anys', especially to all the Joans and Joanes who celebrate their patron saint, and invite you to work with us to do whatever we can to improve Deià.

Have a great festival, and long live Deià!

Lluís Enric Apesteguia Ripoll
